

3/30/15

MN RN Mtg

Pat Darnice  
Lori Lerran  
Sara Munsterman

CONCERNS:

- Heavy Patients - not all ortho.
- New Staff - hard to help them when have own full set.
- MN unsupported "You can't be here 24/7"  
At least Mandy was avail. to carry 6230 phone.
- Day shift "T" Code doesn't have patients, why does MN Controller
- Hard to make next shift assignment - let B's after 6:30 sometimes - We still have pt care to do.
- Lots of stuff for Controller on MN to watch for w/full assignment - difficult.
- Hard to be a resource for new staff if you have busy 5

3/20/15 Met w/ Pat Demma  
See how things going on MN  
w/ Mundy gone.

- \* don't see mgr
- \* MN staff concern no  
one looking out for them
- \* staffing is challenging
- \* Lots of New Nurses  
w/ questions.

Pat suggesting MN have 'T' code  
for MN shift -

Thought: Alex try work late  
1-2 day per week  
or come in early.

Try to have controller  
take less patients

Plan a meeting w/ MN RNs
