11	3	2	1	1	3	2	1

CCSU Addendum to Staffing Matrix:

- ★ 1-2 Vents, staff up by 1 RN
- 3-4 Vents, staff up by 2 RN's
- 5-6 Vents, staff up by 3 RN's

Should you have any questions or concerns please contact
Sue Wolka, Dan Stahl or Marie Boyle Reinman

- ★ When staffing up for vent volume, be sure to adjust total matrix. For example, if total census is 28, but there are 5 vents, the 23 non-vented patients would require 6 RNs with an additional 3 for the vented patients - not 3 additional to the matrix of 7 for 28 patients.
