

Cory, Holly S	Nursing	Signed	Care Management	11/10/16 1515
---------------	---------	--------	-----------------	---------------

CM attended multidisciplinary meeting with the pt, Dr Alrais, Dr Brennan, Social Work, Nurse Manager and Nurse Practitioner Ben. Pt's mother, [REDACTED] participated via speaker phone. Dr Alrais reviewed pt's clinical diagnosis in detail, along with complications, prognosis, and complications to be expected if pt is not compliant. Please see Dr Alrais detailed note.

Pt agreeable to follow up at Beaumont Royal Oak GI Center, as they have more advanced therapies to offer pt, if she is compliant with her diet and medication. Pt plans to continue going to Dr Brennan's office for Diabetic teaching. Per Dr Brennan, a rep for an insulin pump will be at the meeting to discuss a pump for the pt. The patient has the paperwork to fill out for application for the pump.

Cm spoke with pt's long term Molina case manager, Bridget (248 [REDACTED]) Bridget has spoken to the pt and her mother today regarding her case. She is aware arrangement will be made for pt to follow up at BRO.

Case discussed with CM Director. Plan is for home with skilled home care, follow up at Dr Brennan's office and Beaumont Royal Oak GI Center. If pt is admitted again, she will be assigned the same care manager and social worker. CM Director had phone conferenced pt's home care nurse, and had insight into pt's home situation from the nurse's perspective. Case discussed with social work. HC x 6140
