Current placed or scanned image is a .jpg which invites this type of low resolution "fuzziness" in line art. Please send to me original artwork or export as a PNG 24 or Evidence OO5-5, last page is meant to be in landscape mode - (horizontal) but is in portrait (vertical.) Have revised it and made it in landscape.

N 18	12/29/2016 12/29/2016	1	SE6-2 has pages rotated and even when rotated - placed high on the page that obscures the Evidence title. See both links for before and after. SE6-4 pg.2 has scan placed so high it obscured Evidence title. Revised 10-07-16.
