Kirsten/ Critical Care Step down Unit
Beaumont Hospital
468 Cadieux Rd.
Grosse Pointe, MI 48230

Dear Kirsten:

I would first like to thank you for the opportunity of job shadowing with you and for your valuable time that you took to guide me through this job shadowing experience.

I enjoyed job shadowing you because I felt like it gave me a very good insight on what my day-to-day tasks will be when I become a nurse. I felt like you did a very good job explaining everything you were doing and the steps you take when dispensing medications to a patient. We learned some of it in our Medical Careers II class but it was very nice to be able to see it in real life. I really enjoyed job shadowing you!

I would like to thank you again for the opportunity to job shadow you. I would also like to thank you for your valuable time that you took to guide me through the job shadowing experience.

Sincerely,

Cassidy Lombardi

Lianne/ CCSU
Beaumont Hospital
468 Cadieux Road
Grosse Pointe, 48230

Dear Lianne:

I would like to thank you for taking valuable time out of your day to guide me through this job shadow and thank you for the opportunity of job shadowing. I enjoyed my shadow with you because it gave me a good look into what I will be doing in the future and you gave me great advice for college and the road to becoming a Certified Registered Nurse Anesthetist.

I learned a lot about your department from you and this helped me get a good look at what I could be doing in the future. It was informational to follow you around and see how you have to take care of the patients, write down exactly what you did and what they said to you when you examined them and to ask you questions about college. Your advice to not stay as a bed side nurse and keep working my way up when I'm young was great to hear, this will help me when I'm going through college to not stop when I get a good job because if I continue I could get a better one. Also you talked to me about getting into a tactical unit before working on a Critical Care floor because you can't go straight to a CCU this was information that I was never told before.

Again I would like to thank you overall for letting me job shadow you on December 5th 2014. I know sometimes students get in the way when they job shadow so I am very appreciative for how welcoming you were and how informational this job shadow was. Thank you for all of the advice and the hands on experience you gave me during this, I will use it in the future.

Sincerely,

Maryann Davey

Dear Marlene and Surita,

I would like to thank you ladies for allowing me to job shadow you during the past Monday mornings. I appreciate your kindness and willingness to allow me to have this opportunity within the hospital. During my time spent there I had a realization for what you ladies do every morning and the routine that takes place. You both take very well care of your patients and deserve the greatest respect for what you do. You showed me the ropes around the department and I learned so much during the short time I spent with you! Some of the skills you used such as bed making, dressing, and bathing I learned in class and it was very cool to see and use these skills outside of the classroom! The only way to know the reality of the job is to be there, so I appreciate the time I had with each of you and you made a great impact on my decision for choosing my career in the medical field. I had a great experience because you made it a great experience! I wish you the best and thank you again.

Sincerely,

Jessica Reno
